REASONS FOR ALLOWANCE

1. The following is an examiner's statement of reasons for allowance:
Claims 73-90 and 93-95 have been found to be allowable over the prior art of record. The amendments to the claims make the claims allowable over Chang since Chang does not teach or suggest pillars of material and with the teachings of a deep recess teach away from the recitations of the application claims. The claims are allowable over the prior art submitted in the IDS filed on 11/15/2007. Duval teaches a single layer of resist rather than the two layers of resist used in the claimed process. Basceri's process does not use resist processing and Crowder uses conventional resist processing. .

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
